

# Career Exploration Games - Classroom Worksheet Pack

Use this printable alongside the Career Exploration Games Hub. It is designed for short classroom use before, during, or after a game.

<b>Student name</b>		<b>Date</b>	
<b>Class / Advisory</b>		<b>Game used</b>	

## Suggested flow

1) Play one game. 2) Pause after each reveal. 3) Ask students to explain one answer they changed their mind about. 4) Finish with the short reflection on page 2.

## Before you play

Prediction prompt	Your answer
A career that probably pays more than people expect is...	
A career cluster I know the least about is...	
One thing that matters to me in a future career is...	

## During the game

Round / career	What surprised you?	What clue helped most?

**Teacher prompt:** Ask students to compare what they assumed with what they learned from the reveal.

# Reflection and discussion

Use the questions below as a quick discussion sheet, exit ticket, or pair-share activity after the game.

## Quick reflection

Reflection prompt	Your answer
Which career surprised you the most?	
Did salary, cluster, or Bright Outlook matter most to you today?	
Which career cluster would you like to explore more deeply?	
What is one career you want to learn more about next?	

### Discussion prompts for the room

Which job felt more appealing even if it did not pay the most? | Which cluster seems to include the widest range of opportunities? | What other factors should students consider besides pay?

## Exit ticket

<b>Complete one sentence before you leave:</b>	
One thing I learned today about careers is...	
One question I still have is...	

**Tip: This worksheet works especially well with Career Cluster Match, Mystery Career Clues, and Which Job Pays Higher?**
